City of Hesperia

STAFF REPORT

DATE: November 16, 2016

TO: Chair and Committee Members
Public Safety Advisory Committee

FROM: Michael Blay, Director of Development Services

SUBJECT: Consideration of Traffic Safety Measures

RECOMMENDED ACTION:

It is recommended that the Public Safety Advisory Committee make recommendations for the implementation of traffic safety measures on Ranchero Road near 11th Avenue and on Hesperia Road at Lime Street.

BACKGROUND:

On October 4, 2016 a petition to examine traffic safety measures, authored by staff and parents of Just-4-Kids Preschool, was brought forward by the Mayor and City Council with a direction that Staff investigtate the traffic conditions in front of 15420 Ranchero Rd. Accompanying that directive was a second request by Council to investigate the traffic safety conditions at the intersection of Hesperia Road and Lime Street. Both areas have experienced traffic collisions and drivers making evasive maneuvers to avoid collisions.

ISSUES/ANALYSIS:

Staff examined the existing conditions in front of 15420 Ranchero Road and found that the increased traffic on Ranchero Road, as a result of the new underpass and interchange, had created a potentially dangerous condition for eastbound drivers attempting to make a left turn into the driveway of the location. Operating as a properly licensed preschool, the location is subject to a significant number of vehicles pulling into and out of the driveway. Currently, drivers may make a left turn into the location however there is no turn lane to allow the drivers to safely wait for a break in traffic before making the turn. Sufficient area exists to install a two-way left turn lane in the middle of Ranchero Road to service both the preschool and westbound drivers turning left onto Via Antiqua Street south of Ranchero Road. It is recommended that the two-way left turn lane be installed at the location.

The second area of concern is the southernmost portion of Hesperia Road where it turns into Lime Street by way of a sharp right hand turn. There have been instances of southbound drivers failing to negotiate the sharp turn and crashing into the wall of a private residence located at 16389 Lime Street. The homeowner has consistently replaced the wall with sturdier materials in an effort to protect the house but increasing the likelihood of driver injury in the event of an accident. Staff recommends mitigation measures at this location to include additional reflective signage warning drivers of the impending turn and reflective roadway striping.

Each of the recommendations are routine safety measures and have been designed and approved by the Engineering Department and the City Engineer and will not require additional review by the City Council to implement.

FISCAL IMPACT:

The fiscal impact of these measures will be minimal and include the cost of striping and signage. These costs can be absorbed by the Public Works budget as part of street maintenance and safety.

August 25, 2016

This letter is to purpose turning lanes into the business of;

Just-4-Kids Preschool
15420 Ranchero Rd
Hesperia, CA 92345

Just-4-Toddlers Preschool
15400 Ranchero Rd
Hesperia, CA 92345

It is with great concern for the safety of all of my parents, children and staff that I am requesting turn lanes into my businesses before something tragic happens.

As you know, traffic has increased down Ranchero Road 100% with the opening of the long awaited pass and off ramps. It is on a daily basis that we hear squeals of tires and talk of near misses when our parents are pulling into our parking lots.

We are asking for your help to hopefully have a safety lane added, so drivers can clearly see this lane and our families can pull into our parking lots safely.

Sincerely,

Candy Eidson

Candy Eidson
Owner/Just-4-Kids Preschool
